**Camp Information**

In this pristine wilderness blessed with abundant wildlife, your senses, dulled over years by city traffic and lights, are quickly restored to a heightened state as you are gently guided through the bush for an up-close and personal experience. The unspoilt Northern Serengeti presents some of the most interesting, varied and rewarding wilderness areas for walking safaris in the whole of Africa. The highlight of course is the Mara River, where between June and October you have a chance to watch the migration crossings close-up. But there is much more to this area dotted with kopjes, boulders, hidden valleys and hills with stunning vistas of the extensive Mara/Serengeti eco-system.
